EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Tucker on 10, 12 November 2004.

The application has been amended as follows:

In the Specification:

In the replacement paragraph to page 8, line 2, first line therein, "10" has been changed to --10"--.

In the Claims:

In claim 1, fourth paragraph, second line therein, --, said second rectangular slab comprising a first side, a second side and two edges-- has been inserted between "material" & the ",".

In claim 1, sixth paragraph, fourth line therein, "a" has been changed to --the first--.

In claim 1, the eighth paragraph which currently reads:

"a first and a second ground plane, wherein said center strip is positioned between said first and second ground plane" has been rewritten as the eighth paragraph and a new ninth paragraph which collectively reads as follows:

--a first ground plane positioned with a side of said first ground plane perpendicular to said first side of each of said first and second rectangular slabs of dielectric material; and

Art Unit: 2817

a second ground plane positioned with a side of said second ground plane perpendicular to said first side of each of the first and second rectangular slabs of dielectric material, wherein said center strip is positioned between said first ground plane and said second ground plane.--.

In claim 7, line 2, "is" has been changed to --are--.

Comments:

Applicants' proposed draft amendment to claim 1, transmitted by FAX, has been found acceptable by the examiner. Accordingly, the changes to claim 1 proposed by this draft amendment have been incorporated into the above examiners amendment.

A change to the title of the application has been implemented by the examiner. This has been done by an informal examiners amendment. The amended title now reads as: --Voltage tunable laminate dielectric materials for a coplanar waveguide--.

Claims 1-9 are allowable over the prior art of record.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Benny Lee whose telephone number is 571 272 1764.
